HOSPICE AND PALLIATIVE CARE IN THE GLOBAL COMMUNITY

September 22-25, 2010
Fresno, CA

UCSF Fresno Center
for Medical Education and Research
155 North Fresno Street
Fresno, California 93701
USA

Hinds Hospice
Honoring the Journey

University of California
San Francisco
UCSF
School of Medicine
Fresno Medical Education Program

COMMUNITY
MEDICAL CENTERS

Course Objectives:

At the conclusion of this activity, the participants will:

1. Better understand the challenges and barriers to developing and putting into practice a successful Palliative Care/Hospice Program for patients.
2. Improve patient lives when applying the WHO pain protocol at the end of life.
3. Apply current guidelines for symptom management in patient care at the end of life.
4. Identify ways to sustain palliative care and hospice when dealing with resource poor regions and countries, and among highly diverse patient populations.

Target Audience:

Physicians (Internal Medicine, Family Medicine, Pediatrics, Geriatrics, Palliative Care, HIV specialists), Nurses, Social Workers, Allied Health Professionals, Chaplains and Volunteers

Throughout the conference there will be reference books and information from organizations needing volunteer help in developing countries. Short term or long term needs will be specified. Contact person will be provided. If you desire to serve, there will be a roadmap to help you.

For Information and Questions:
